**H.E. Mr. Jean-Claude JUNCKER**  
President  
European Commission  
Rue de la Loi/Wetstraat 200.  
**1049 Brussels; Belgium.**

Tel:  
Fax:  
Email: [president.juncker@ec.europa.eu](mailto:president.juncker@ec.europa.eu)

**PER REGISTERED POST & EMAIL<sup>a</sup>**

Athens, on 21 January 2016.

Dear Mr. Juncker,

1 Unless the Commission is satisfied not to control the implementation of widely  
2 flagged Memoranda with MS - GR<sup>1,2,3</sup>, the multi trillion Euro Bilateral Agreements  
3 with Switzerland<sup>4,5</sup>, and God knows what else; and have this fact widely dissemi-  
4 nated, the subject matter leading to Ares 2015/4071736<sup>6</sup> is of fundamental policy  
5 nature and beyond the competence of functionaries.

6 Following the termination of relevant communications<sup>7</sup> - explicitly on behalf of the  
7 Commission's president - by DG HOME [Ref. Ares(2015)5945001 - 18/12/2015<sup>8</sup>]

8 **I hereby request a personal appointment with Mr. Jean-Claude JUNCKER**  
9 who has been the addressee of the correspondence leading to Ares (2015)4071736<sup>9</sup>,  
10 **regarding:**

- 11 1) **The systemic failure to Act<sup>10,11,12,13</sup> and Control<sup>14</sup>** the implementation of  
12 the afore mentioned treaties.
- 13 2) **The systemic failure to provide for access & independent resolution**  
14 **mechanism(s)<sup>15</sup>** for MS stakeholders.
- 15 3) **Repeated attempts to cover up** the state of affairs (Communication Exer-  
16 cises) by EC services to both Stakeholders<sup>16</sup> and EP members<sup>17,18</sup>.
- 17 4) **The lack of informant Protection** within, let alone, outside the EC<sup>19</sup> despite  
18 flagged precedent case histories.
- 19 5) **The systemic practice of terminating<sup>20</sup> interaction** with MS Stakeholders  
20 and EP members if dressing up, playing for time<sup>21</sup>, and massive Communica-  
21 tion Exercises up to EP level<sup>22</sup> fail to wear them down<sup>23</sup>.
- 22 6) Etc.

---

<sup>a</sup> To the Juncker's Team ( [https://ec.europa.eu/commission/2014-2019/president/team\\_en](https://ec.europa.eu/commission/2014-2019/president/team_en) ).

23 On at least two occasions the Commission announced the firm intention, and finally  
24 concluded “flagged” treaties: A) the Bilateral Agreements affecting hundreds of  
25 thousands of MS nationals and trillions of Euros in trade & services with a third  
26 State (CH)<sup>24,25,z</sup>, and B) Wide ranging MS Memoranda (GR) and has failed to control  
27 the signatory’s compliance as well as enable formal access to MS stakeholders.

28 In both cases, following reports of foul play<sup>26,b</sup> by contracting parties, the relevant  
29 Commission services attempted to ignore pertinent facts and implementation short-  
30 comings. Upon failure to “wishy wash”, instead of offering a bona fide resolution  
31 avenue Commission services chose to “agree to disagree”, play for time<sup>27</sup>, and/or  
32 terminate correspondence.

33 When affected MS stakeholder(s) individually and collectively chose to “bite the bul-  
34 let” and invest the time, monetary, and other costs necessary in formally addressing  
35 “overseeing” European Parliament Committees (Petitions<sup>28</sup>/JURY<sup>29</sup>/ ...) these too  
36 despite - their statutory obligations - either did not respond, or under the expressed  
37 influence of Commission employees (who went on to become EU Ambassadors)  
38 went as far as deny relevant precedence celebrity status experts<sup>30</sup> in invited EP Com-  
39 mittee Meetings the right/chance to speak<sup>31</sup>. The MS Nationals, at Tenured Profes-  
40 sor level, complaining over *the widespread praxis of exclusion and discrimina-*  
41 *tion* (in Switzerland - *locals’ preference* in employment) seeking support and pro-  
42 tection were in Brussels in part thanks to CARITAS<sup>32</sup> Switzerland donations.

43 While the European Commission and Parliament systematically failed to deliver on  
44 flagged treaties - on which MS Stakeholders rely, depend, and make life decisions -  
45 the high contracting party (CH), with access to insider knowledge and appreciation  
46 of the commission’s likely counteraction - or lack thereof - felt free and compelled  
47 to exercise extreme countermeasures against the commission’s informants.

48 These were left to face the consequences in asymmetric encounters for existence<sup>33,c</sup>  
49 with the contracting state, in effect, for having reported treaty violations to the EC.  
50 In CH MS Stakeholders were invariably denied their financial existence<sup>34,35,36</sup>. Hard  
51 won, rare, written assurances from the highest CH administrative instance<sup>37</sup> were  
52 not kept<sup>38</sup> and they were coerced into abandoning long term positions and hard  
53 acquired rights – such as the permanent residence<sup>39</sup> permit and pension<sup>40</sup> capital.  
54 Registered and insured applications to the ECHR<sup>41</sup> (an OECD cold war relic with a  
55 mere 3/1000 chance of an Application being admitted) got “lost”<sup>42</sup> by the Swiss  
56 Post.

57 **On a personal level I need to know if the Commission stands for the MS na-**  
58 **tionals or a few MS potentates** [a Crown Prince<sup>43</sup>, past territory governors<sup>44</sup> - lords,

---

<sup>b</sup> On whose knowledge basis (EEAS) the commission services rely on ( [www.elvetia.org/lac/index.aspx](http://www.elvetia.org/lac/index.aspx) ).

<sup>c</sup> The Swiss state protects a large portion of its annual budget with any and all means necessary.

59 retired (prime) ministers, other political have beens and their families] a number of  
60 whom I came across in pursuing<sup>45</sup> in vain and in undeserved trust and good faith pre-  
61 emptive & corrective action over the last 10+ years.

62 Having subsequently worked as Ministerial Aid<sup>d</sup> for five years I can “see” institu-  
63 tional point of view as well as the challenge of taking up well founded policy exer-  
64 cising institutions and do wish I could let things stand. Notwithstanding, having  
65 placed undue trust in the Commission<sup>46</sup> I am a very dissatisfied and hurt stakeholder  
66 to the Commission’s failure to Act as ensured in Writing<sup>47</sup> in Greece<sup>48,49</sup> and partic-  
67 ularly in Switzerland<sup>50,51</sup>. With respect to CH following invited visits to DG1A  
68 Constantijn van Oranje, Nassau<sup>52</sup>, currently with Macro Advisory Partners<sup>53</sup> (Club  
69 Bilderberg Ltd. ??<sup>54</sup>), and several MEPs felt compelled to call me up in person and  
70 invite me to Strasbourg, Brussels and Switzerland (e.g. meetings of the Inter-parlia-  
71 mentary committees CH/EP) on regular intervals to prevent, through association,  
72 possible arrest or far worse<sup>55,56,57</sup> for reporting the Swiss practice of Expatriate Ex-  
73 ploitation<sup>58</sup>.

74 Despite the flagged “*Dr. S. Adams versus the Commission case*”<sup>59</sup> there are no  
75 informant protection provisions within, let alone outside, Commission’s services<sup>60</sup>.  
76 Even when asked to do so by Commission personnel<sup>61</sup> MS Nationals approach the  
77 Commission on matters of treaty noncompliance at their sole peril.

78 **If the Commission is systematically unwilling or unable to follow assurances**  
79 **with actions, then MS Stakeholders like treaty partners should be made privy**  
80 **to these fact.**

81 It may be long overdue to evaluate the macro and micro (economic) consequences  
82 of the failure to act in both A) the Bilateral Agreements affecting hundreds of thou-  
83 sand MS nationals and trillions of Euros in trade & services with CH<sup>62,63</sup> and B) the  
84 wide ranging Memoranda (GR) to MS and individual Stakeholders. Should the Com-  
85 mission decide to initiate a relevant (ongoing/ex post) fact finding mission I here-  
86 with put myself and experience forward as member/leader to the team(s).

87 Asymmetric court encounters, up to and including application of retroactive legisla-  
88 tion in an ongoing case (CH) have left a sour but solid grasp of the capabilities of  
89 policy exercising Institutions vs. Individuals and Groups in all kinds/fashions of  
90 court like <sup>64,e</sup> tribunal. *The widely advertised application of Acquis Europe is a*  
91 *Joke in Switzerland - employment and other discrimination*<sup>65</sup> *of long term MS*  
92 *residents* is called “*locals Preference*”. In the belief that this is not the case several

---

<sup>d</sup> I strongly suspect I must thank the Swiss Authorities and my high nuisance value for “arranging” this privilege.

<sup>e</sup> The UBS recently filed in excess of 1,500,000 pages of documentation in a civil case against a private individual in a US court.

93 hundred thousand MS expatriates<sup>66</sup> have entered CH following the conclusion of  
94 the bilateral agreements and the vast majority has suffered heavy personal losses out  
95 of the “pimp like” propagated “*Acquis Europe*” illusion. Failure to act in GR  
96 means i.a. that since the Memorandum several published attempts by the highest  
97 echelons of the judicial system to investigate high profile corruption affairs involving  
98 past political potentates and their entourages have already been foiled by Article 86<sup>67</sup>  
99 of the Greek constitution and Family members of potential perpetrators in un-  
100 clarif(ied)iable case histories – the main profiteers of past mismanagement - are po-  
101 tentially, unfairly, funding high profile political careers with the spoils.

102 Bearing in mind that following the personnel changes in the EP and EC in 2004 I  
103 was forced through threat and coercion<sup>68,69</sup> to leave Switzerland and I am (age and  
104 discontinuities in employment) forced to live in Greece outside my learned profes-  
105 sion<sup>70,71</sup> in P. Administration with a 20 year delay in entry on a fraction of the accus-  
106 tomed income, negative equity, and few prospect for a purpose sufficient pension  
107 scheme.

108 Should once again the response to this communication be evasive or wanting; in the  
109 knowledge that a) the maximum legal aid by CURIA<sup>72</sup> is absolutely insufficient for  
110 providing arms equality conditions<sup>73, f</sup>, b) all half competent European Law Experts  
111 insist on representing the/a endowed side, and c) the fact that relevant petitions to  
112 the EP have remained unanswered will force me to go public on the Commission’s  
113 failures 1.) to 5.) above in issues such as BREXIT and seek potent allies and inno-  
114 vative means of financing or doing away with a CURIA process.

115 In the meantime, I would be pleased to advise the Commission on the BA Agree-  
116 ments with CH - which are in for a very rough ride if the upcoming public referen-  
117 dum (February 2016) succeeds as well as the matter of curtailing effectively the Ju-  
118 dicial immunity of past and present political potentates in GR<sup>74,75</sup>.

119 Should you have any questions, I will be pleased to try to answer them.

Sincerely yours,

K. Parlavantzas

120 PS. It may be that this communication, as a result of its depth/complexity, needs to  
121 be formalised by a European Law expert.

---

<sup>f</sup> Dr. Stanley Adams personally assured me that in his case “**S. Adams vs. the Commission**” the ratio of engaged legal talent was at least 12 to 1 for the Commission and he was forced to accept a compromise so as to see some outcome in his lifetime.
