**BILATERAL AGREEMENTS WITH SWITZERLAND – DOSSIER ON THE FREE MOVEMENT OF LABOUR**  
**[Umsetzung der Masseneinwanderungsinitiative].**

1 Dear Mr. President,

2 As you are aware, the **EU freedom of movement and residence<sup>a</sup> is the only tangible result of the EU**  
3 **to the vast majority of its citizens** who, as the recent BREXIT vote, has amply shown are increasingly  
4 at loss with the value of, as well as tired, and discontent with that institution.

5 **The Swiss Confederation** - who has institutionally been harvesting the assets, the educational capital,  
6 and best and most productive years of several million EU MS nationals since the beginning of the 19<sup>th</sup>  
7 century ( see: [www.elvetia.org](http://www.elvetia.org) ) - **desires<sup>b</sup> to do away with the EU freedom of movement and**  
8 **residence enshrined within “Acquis communautaire”.**

9 Were the Commission to consent on this for Switzerland, what argument - in the face of precedence  
10 - will there be to deny the same concession to the UK? That would be the end of the EU freedom of  
11 movement and residence and most likely the beginning of the end of the EU.

12 The Swiss seek to impose unilateral controls on the movement of persons as well as enshrine in  
13 common law the already wide practice of “preference” [ Inländervorrang ] to Swiss nationals. The  
14 vast Majority of MS citizens residing in that country own a high quality education paid for not by the  
15 Swiss confederation. They qualify far more as high quality expatriates than migrants. The vast majority  
16 of the yearly stream of returnees in their tens of thousands<sup>c</sup>, having squandered a considerable  
17 amount of time, money, and energy in that country and paid all dues, at rates far in excess of  
18 equivalent Swiss nationals, find themselves in dire circumstances when forced to leave. Age,  
19 continuity, and quality of employment are not of importance just within CH.

20 The Commission ( EEAS ) is hereby urged to set up an appropriately endowed taskforce to evaluate  
21 ASAP the cost of this long ongoing assets harvesting practice to both the MS as well as the affected  
22 MS individuals. There exist a great deal of old age and other material benefits, which though financed  
23 by all residents, are institutionally denied to the vast majority of MS Nationals.

24 The E. Commission (including the EEAS) has a high exposure to risk and is often in need of insider  
25 information to function but has no Whistle-Blower protection provisions. It also has a record of  
26 concluding soft Agreements involving Joint Committees(EU-CH)/Commissions(JCPoA) that do not  
27 provide for recourse to any independent instance, let alone an accessible one to MS and/or their  
28 nationals. Although Major, corporate, Stakeholders can purchase accurate insider knowledge and take  
29 advantage of such facts and cracks in the system - individual MS Nationals, to their peril, cannot do  
30 so. In undue trust that a potent institution (the E. Commission) exists and is on their side, they are  
31 misguided to unwarranted, futile, and unnecessary risks<sup>d</sup>.

32 The Commission is found to turn, at best, a blind eye to the implementation of Multitrillion Bilateral  
33 Treaties (Viz. Switzerland) where merely two fulltime Commission employees<sup>e</sup>) attempt to  
34 “counterbalance” an Army of Swiss officials “implementing” the Bilateral Agreement<sup>f, g</sup> on the Free  
35 movement of Labour alone (See [www.elvetia.org](http://www.elvetia.org) - THE SWISS STATE’S PERSPECTIVE<sup>h</sup>). A budget  
36 significant resource to that state.

37 On the personal level, I would like to offer my 17 years’ experience in that country, the relevant  
38 understanding of its structure and ways to the Commission’s Joint Committee (EEAS) involved with  
39 the “control” of the BA with that country and I would really welcome some affirmative action on the,  
40 as yet, unanswered letter to you, dated January 21<sup>st</sup> 2016<sup>i</sup>. Alternatively, I would welcome an  
41 affordable way of taking the matter, under Fair/ [Arms Equality] conditions, to CURIA<sup>j</sup>.

42 Sincerely yours,

43 K. PARLAVANTZAS

44 Cc: The COREPER II committee, all MS.  
45 The Federica Mogherini’s team, EEAS  
46 The Juncker’s team.
