

ATTACHMENT 2**EMPLOYMENT & SOCIAL EXCLUSION
CASE HISTORIES OF OTHER HIGH END EUROPEAN UNION NATIONALS.**

The extensive legal and administrative control instruments needed to:

1. implement the swiss large scale migration policy¹.
2. effect, manage, and optimise the significant incoming and outgoing flows of legal foreign nationals and their families.
3. control, regulate, allocate the foreigners' quotas within both the Cantons as well as the economy, optimise and coordinate their exploitation, and
4. organise and facilitate their timely and cost effective repatriation,

have stood the test of time are fine-tuned, well tested, systematic, and highly effective².

Sooner or latter over 90% of the once welcomed and actively recruited migrant workers from overseas are faced with the need to permanently depart Switzerland.

Consciously or unconsciously resisting the swiss national foreigner rotation policy is not possible. This is certified by the well known Human Rights specialist - Attorney at Law **Ludwig A. Minnelli**³, in his letter⁴ to the applicant dated 02.03.1999.

Attorney at Law **Ludwig A. Minnelli** writes:

*"..... I have already informed you that **Switzerland has, to date, neither signed nor ratified the European social charter (Right to Work).***

Even if Switzerland would be a member of this multilateral treaty; as a result of the fact that the European social charter contains no enforcement mechanisms; there would be no possibility of bringing a violation of one of its regulations by an individual complainant before any national or international authority under international law.

SOONER OR LATER YOU WILL HAVE TO COME TO TERMS WITH THE FACT THAT AS A RESULT OF YOUR PROFESSIONAL SITUATION HERE THERE ARE NO LEGAL METHODS WITH WHICH YOU CAN FIGHT AGAINST JUSTIFIABLE OR UNJUSTIFIABLE DISCRIMINATION IN SWITZERLAND.

Just as little you will be able to achieve in the political avenue whether in Switzerland or abroad.

My long-standing experience with many cases shows that all these efforts are absolutely useless and this is so even if one or a number of media take an interest in your case.

I am sorry not to be able to give you any better advice".

The Swiss version of political Justice has been recently described by Prof Dr. Walter Wittmann Born 1935, Swiss National, in his book titled: - DER HELVETISCHE FILZ = THE CASTE SOCIETY IN SWITZERLAND.

POLITICAL JUSTICE

“Last but not least, Switzerland is the only developed country which has discarded a clean separation between politics and justice.

Judges are chosen and elected - or not - under political criteria. At the same time these non-professional judges are active in other functions and are automatically interest representatives of their “bread providers”.

They must behave “politically conform” so as not to be disposed off. More often than not members of the ruling caste/cartel enjoy a goodwill bonus against those who are not connected to an influential network.

Contrary to all democracies Switzerland knows no Constitutional Court. The Uppermost judge is the Swiss Parliament, which rules, so to speak, alone over its decisions, it is therefore self regulating. The swiss parliament is not responsible to an independent Court. Literary speaking the People have the last word: Here the majority decides what is “right” and what is “wrong”. One is confronted with a “mob justice”.

The Swiss press is controlled by a militia organisation called APF-500⁵.

Notwithstanding the control of the Press, a number of extraordinary, high profile, professional exclusion cases have surfaced over the last few years.

A small number of exemplary-publications on three unrelated EU nationals are appended to this Attachment:

¹ See Attachment 1.

² The effectiveness of this control apparatus can be seen by the case history of Tim and Nadette Haley, See Appendix 2-07.

“After writing **five farewell letters** Nadette went to the St. Johann factory premises of Novartis in Basel on August 20th 2003, at four o'clock in the afternoon. There, having **doused herself with petrol, she set herself on fire.**

Two Canadian tourists who happened to be around, tried to put out the flames. Novartis employees quickly arrived at the scene. But it was too late. Nadette was first taken to the Cantonal Hospital in Basel and then to the University Hospital in Zurich where despite the help of a dozen doctors she died that night. Tim Haley says: “Nadette described Basel as being the only place that she regarded as home’.

Despite all this, under the pretence that “in ignorance of the personal facts - suicides are generally not commented upon” only a tiny report on Nadette’s death was published in Basel.
